## FACULTY

We cannot forget our faculty . . . we cannot forget the people who have had so much to do with the directing of our destinies . . . from all we have learned something. We laughed with them, we worked with them . . . we praised their good points, we griped about their bad ones . . . we went to their classes; sometimes happy, sometimes sad . . . but we always learned something—something that might be useful too, during our long journey on the hard road ahead of us.

No, we cannot forget. We will remember our faculty. We will remember them all.

The Debating Club of Marion High School occupies a great space in the life of our school. In 1947, Triangular Debates began again, after a temporary cessation, under the marvelous guidance of Mr. Carter.

This school has been honored, indeed, by the victories that teams from this school have received. Though many times suffering defeat, our teams have always returned with greater zeal and determination to win over the greatest of obstacles in future debates.

MIXED CHORUS

The chorus under the able direction of Mr. Bernard Hirsch has given many enjoyable programs this year. The membership is not too large now, since this is the first year that we have had a mixed group. All students who like to sing and who enjoy good music should join the chorus, not only for the sheer pleasure of singing, but also for the excellent training given.

## A T H L E T I C S

## FOOTBALL

The Rippers opened the 1951-1952 season with what looked like a winning year. They downed Hendersonville 38-13 on a Monday night and bounced back to down a strong Wilkes team 14-11 on a Friday. After those two wins came Crossnore and Forest City for the Rippers and then came the fatal game—Morganton.

The Rippers struck quick in their fifth game of the year and moved ahead 6-0 as Howard Ledbetter continued to make himself a noted backfield star. After being trapped for about 15 yards behind the line of scrimmage Ledbetter reversed the field and went over for a touchdown that thrilled the stands.

In the first four wins it had been Ledbetter and Harding in the Rippers' backfield. In this, the fifth game, it was Ledbetter and Harding again. As the half neared the Rippers marched again to a touchdown to take the half time lead of 13-0. The third quarter started and ended with a thud for the Rippers—Ledbetter had been hurt. The Rippers went on to win the game 19-0 but they lost one of their best players. Ledbetter had suffered a brain concussion that put him out for the remainder of the season.

The only win after the injury of Ledbetter was the Kings Mountain game. Jim Ricks intercepted a desperation pass in the final minutes of the game and raced it back to the visitors' five yard line from where Harding went through the line on a trap for the game's lone touchdown.

In another game the Rippers lost Harding with a fractured foot. The loss of Harding put the Rippers in the worst shape of the year. Although Harding was invited to play in both the Optimist game and the Shrine Bowl game he had to decline both invitations because of his injury. Harold Condrey ended the Rippers' football season by playing an outstanding game in the Optimist Bowl.

## SENIOR CLASS PROPHECY

On a cold, bleak winter night while the wind bowed the tree tops and rattled the panes in the windows of the Secluded Inn at Lonesome Valley, comfortably sitting by the warm, flickering fire, we were glad we had returned from our world-wide tour of peddling flea eggs from door to door. Our thoughts tonight were of our classmates we had seen on our tour, as it was the first news we had had of them in ten years.

Nancy Bradburn and Jimmy Lomon were celebrating their ninth anniversary at the Blushing Youth Hotel in New York City. Jimmy Jr. was having a fine time being tossed in the air by an old friend of the family, Bobby Morgan, the successful author of the book, "Beware the Curse of Women."

We were surprised to find Johnny Glenn, "The boy most likely to succeed," working as a clerk in the Piggly Wiggly Stores, trying to support a wife. Vera Brown, "the girl most likely to succeed," lived up to her standards by founding the college of Hyponoties for Women. The most learned professor there was Della Hollifield.

While we were stopped at the "Racetrack Tavern" in the Sahara Desert run by the two famous geologists, Ray McGalliard and Harold Dean Lawing, we caught a glimpse of Anza Stroud ambling by on his camel led by Dean Robinson. We were informed that he was married to the wealthy princess, Sheikrette. He was on his way to donate more of his wife's money to the School of Missions, run by Jeanette England.

We went on to Baghdad where Max Arrington, William Bright, and Bobby Jarrett had a flourishing trade post where they sold magic carpets. Hearing a great ovation from the market place and being women of curiosity, we rushed over to find Bill Suttle auctioning slave girls.

During our stay in Paris, we were lucky to find a cafe which specialized in American food. This quaint tea shop was run by Betty Taylor, Ruby Hensley, and Geraldine Corn. Their cook was the famous chef, Buford Ross. After our delicious meal, we decided to attend a concert at Palace Theater where Marie Hager, the ballerina and Donald Ross, pianist were making their debut while studying abroad. Early the next morning we were awakened by a commotion in the street below. An officer, Fred Frisbee was trying to

get Charles Poole, who is now campaign manager for Geneil Ellis, woman politician, to stage his parade in some other section of town.

Upon our arrival in India, the first place we visited was the palace of Prince Aly Con where Joanne Landis, the most beloved of his hundred wives, lived in luxury attended by her ten hand maidens. While we wandered around the vast estate, we discovered Harold Condrey entertaining the other 99 wives of the Prince, by standing on his head and shooting BB's in his watch pocket. Alma Evans and Frances Waters, two ladies of the house, were gathering ostrich's eggs for the banquet to be held that night. As we passed the garden, we saw Bobby Bright and Cecil Barlowe cleaning spider webs from the orchid tree. During the lavish banquet, one of the Prince's generals, Jackie Houck, rushed in with news that Johnny Runion and Claude Webb had been injured in a battle with the natives. This bad news was soon forgotten as Betty Lou Simmons calmed the guests with the traditional native dance.

After the excitement of India, we decided to make Hawaii our next stop. Our first morning there we rose early to take a refreshing morning dip in the cool clear water of the bay. As we approached the water, we saw Jimmy Rader boarding his yacht for a day of fishing. On our way back to the hotel, we caught sight of Patsy Teague, Peggy Lassiter, and LaTrelle Smith relaxing on the beach after their trying experiences in the divorce court where each had obtained four divorces. When we arrived at the hotel, the clerk, Nellie Marler, gave us a message from Dean Ross to have dinner that night at his night club. At the beautiful, elaborate night club we dined as the orchestra of Bill Hawkins, the famous trumpet player, and his vocalist, Loretta Walker, presented lovely music. As we looked around the room we saw Jane Matthews and her wealthy husband, a sardine packer, on their honeymoon; also we spotted Dee Morgan, the rich play boy, surrounded by gold digging hula dancers. The next day as we shopped we ran across Cecil Owenby and Merle Holcombe selling grass skirts, fashioned and modeled by Thelma Austin. They directed us to the huge plant where octopus eyes are canned which is owned and operated by Georgia Wilson and Martha Davis.

Brazil was our next stop. While we were in search of a hotel, we heard some noises on the street which very faintly resembled that of music. Upon inquiry we found that it was Douglas Isaac's six children who had developed their father's love and gift of music. Continuing on our way we passed by the winter home of Howard Ledbetter, who has long since retired from active athletics. Sports writers still look to him to pick All American teams in football. Nearing the hotel, we saw the set of the movie "Love In A Nutshell," which stars the famous actor Troy Brown, known to the public as the third Valentino. The director of the production was Countess Doris Lawing, and Joan Jarrett, the famous fashion authority, designed the costumes. When we arrived at the hotel, we were told of the news that Professor Tommy Laughridge had perfected a device whereby all the stars in the heavens may be grouped into one on such nights that the moon does not cast enough radiance. The next day we visited the plantation of Janelle Harrison who married a wealthy coffee bean grower. Janelle spends her free time on the vast plantation counting coffee beans.

China our next destination was full of surprises. As we were touring the countryside one bright day, we noticed a man laboring knee deep in water in his rice paddie. Drawing nearer we recognized him to be Ray Harding. Traveling further down the road, we were surprised to see a very modern looking factory. We were informed it was owned and operated by Ann Walker and Colleen Houck, who were very successful in raising silk worms. About a mile from their estate, we saw a tiny dilapidated straw hut on the hillside. We were amazed to learn that this was where Corinne Ellis, Nina Edwards, and Marie Hollar worked and discovered a cure for corns and in-growing toe nails. As the sun grew hotter and we continued on our way, we were suddenly overcome by a speeding rickshaw pulled by Gerald Murray. On the outskirts of the town we stopped at a factory to buy a pair of chopsticks. We learned that Ruby Buchanan and Doris Moody had become very wealthy as owners of this establishment. Early the next day we went to the dock thirty minutes before our boat was scheduled to leave in order that we might see the fishermen leave for the morning's catch. Eugene Padgett, the owner of a great number of these boats had become wealthy by finding the great Hopeless pearl. As we walked up the gangplank of the King

Edward, we were greeted by Marie Turner, the friendly hostess of the ship. We enjoyed her company throughout the ship and our chats with Betty Lou Murray and Nada Hester, who were married to wealthy husbands and spend their time vacationing in distant lands.

Our first night in Spain was spent in Barcelona where we took a moonlight cruise in a gondola that was rowed by Earl Styles. Alvin Owenby stood on the bank and serenaded the lovers with his golden voice and the mellow tones of his guitar. The next day we went to the bull fights where Ernestine Daniels, the most famous lady matador in the world, was performing. Her sister-in-law, Hilda Daniels, designed her wardrobe and arranged her schedule. At the bull fight we saw Senorita Betty Huffman who is married to Senor Milan de Salvador, the Spanish Ambassador to Busick. The following day we visited the clinic of David Pittman, who had discovered a sure cure for the tobacco habit and a lotion guaranteed to grow hair on bald heads. David told us that Eva Norton was married to a research scientist, who had made many discoveries in the field of botany. Eva, who has become a famous author, uses Spain as the setting for most of her books. Joyce Harklerode and Doris Young have perfected castanets and by selling them cheaper by the dozen have become two of the most wealthy women in Spain. Later in the day we went shopping for a lace shawl which we found at the nifty shop of Betty Jean Morgan. Her shop had become the fashion center in Spain.

It was wonderful to see the Golden Gate Bridge at San Francisco as is signified that we were nearing home. Kaye Brown met us at the airport in her limousine and took us to her theater where the famous "Finley Follies" created by Mamie Finley was billed as the greatest show on earth since Ziegfeld died. Helen Early and Joanne Cheek were the popular co-stars of this production. Mary Olive Cordell, the famous artist, designed the scenery and costumes. After the show, we attended a tea given by the fashionable socialite, Mary Jane Martin. The tea was in honor of Flora Couch, who had been awarded the Nobel Prize for discovering a drug that would start a man's heart back to beating after it had been stopped as long as twelve years.

All of these thoughts came back to us as we sat comfortably by the fire after our pleasant journey.

I have really enjoyed going to school all these years. This year has really meant a lot to me, since I got over my shyness of previous years. You are a fine girl & anybody could hope to meet anywhere or anytime. I have enjoyed playing in band with you. You are one of the takentmost persons I have every met. You are active in church work, you play the piano real well. I wish you the best always, but I am sure you will succeed in anything you undertake.

You are one of the friendliest & easiest persons to get along with I have met. I am look forward to three more years in high school Well, B, I can not write all that I would to because I can not think clearly to today, hope you will forgive me. Best of luck to the best of them all!!!

Yours always,

Charles Dickson

My dearest Sweetest Friend,

The past nine years and <sup>the</sup> ones before that,  
have been most enjoyable.

You don't know how much it has meant to me,  
to have you as my friend.

We have had a lot of good times together,  
which will be memories for years to come.

Always remember the good times we had  
at all the Freshman parties.

I want to wish you this old thing called luck  
that I have been wishing everyone else, with  
great seriousness from the bottom of my heart.  
I know with a personality like yours, you can't  
help but succeed in all your undertakings.

Aug. 27. "Picking" that thing down for the  
time... my mom <sup>wrote</sup> a girl with your ability  
of music is needed in this Old Town of  
Marion. You may wake up some day with  
a piano recital in Carnegie Hall.

A load of luck and love & one who  
deserves it most.

As Always,

Dad. "Bugsy"

Dear B-Frieder,

It has been a great pleasure knowing you and going to school  
with you these past few years especially this year. We really  
had fun this year in band (soccer); those were some  
of the best moments we had. I am sorry to let you know that you  
will not get out of soccer this year. We really enjoyed  
soccer and have some knowledge to let us play with it. B-Frieder,

It's our good times on sand traps, but I feel that you  
will be a success in anything you attempt. Always remember  
that you always play the way you want and if you know that you  
will be a success in anything you attempt, you will have a hard  
time on sand traps, but I feel that you have had a  
good time all the other year traps have had.

With you all the way, keep your head up and success in the world.  
Yours if anyone deserves it you do.

Dear B-Linda,

I have really enjoyed knowing  
you this year. You are a very  
sweet girl. I will never forget  
the good time we had at your  
house egg-dying. Best of luck always.

Love,

Betty Greene
